

VeCommerce

for Sage 200

The VeCommerce module provides seamless integration between your website and Sage 200, this provides more efficient processes enabling the sales cycle to be kept to a minimum, allowing greater throughput of orders and payments.

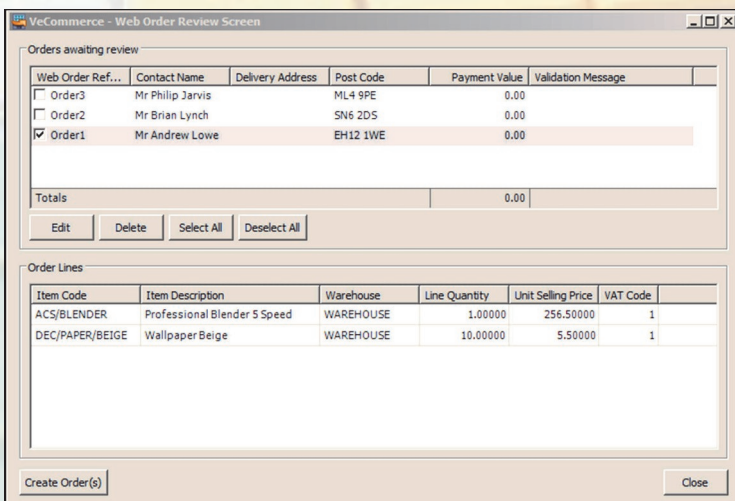

Key elements of our product are definable customer and customer stock item updates to the website; customer and product 'best price' and price book options.

VeCommerce allows full automation of order creation from the website or manual selection through a review screen.

VeCommerce Features & Benefits

- Automatic creation of new customer accounts for first time web shop customers
- Automated e-mailing of order acknowledgements and invoices via Spindle or VeCommerce
- Live stock look up between web shop and Sage 200 using web services to give current stock positions
- Option of single web shop account and individual customer accounts
- Calculated next receipt date for all exported stock items
- Exception reporting of validation errors and issues
- Carriage and delivery information handled
- Creation of foreign currency sales orders
- Secure FTP XML data exchange
- Handles payment with order
